Sharing Case Notes in HMIS
• The Committee approved creating a Housing Notes service for all projects in HMIS to track and share housing-related case notes.
• The Committee approved using the PIRP format to collect these notes.
• Staff will develop a training for entering these notes and will share with the working group prior to implementation.

Entries from Homelessness Measure
• The Committee approved the addition of a new “neutral” entry for the Entries from Homelessness measure: clients entering from non-homeless situations where their length of stay was less than 7 nights and they were homeless prior to entering the non-homeless situation.

Returns to Homelessness data
• The Committee discussed whether or not client-level data for the CoC should be shared with agencies regularly so each agency can pull their own Returns to Homelessness data.
• The Committee felt that the “pathways” data included in the Stella report was a better way to review this data.
• Staff will share the Stella “pathways” data at a future meeting.
RRH Project Performance Analysis

- Staff will present the RRH Project Performance report and the RRH Goals and Outcomes report to the Committee.

December Meeting

- Committee decided not to meet again until January.

Next Meeting Date: January 9, 2020, 1:30 – 3:00
