

**Are you a
MILITARY STUDENT
who has landed at
COLLEGE?**

THE DROP ZONE

is an on-campus resource for military-connected students – whether they identify as veterans, current service members, or military family members. Staffed by fellow veterans, this program assists students in their transition from military culture to college life. Staff

understand the distinct challenges, stressors, and barriers that military-connected students may face, as well as the strengths and experiences which they bring to the campus and community. The Drop Zone is established to support unique needs and unique narratives.
