MHSA Plan: Support Levels

Community Support programs are specially designed to reach large groups of people at a time. They aim to strengthen the resilience and wellness of a community as a whole by providing information, training and skill-building around mental health.
MHSA Plan: Support Levels

**INDIVIDUAL/FAMILY SUPPORT**

*Individual/Family Support*

is the largest Support Level in BHS, serving individuals who are living with or at risk of developing a mental health condition and their families. Services are provided at the individual level and customized to meet the needs of the person.

---

**BHS SYSTEM SUPPORT**

*BHS System Support*

refers to the infrastructure that maintains the behavioral health system itself. Funds develop the behavioral health workforce, the facilities in which MHSA services are provided and/or administered, and the technology that supports service delivery.
MHSA Plan: Service Functions

- Community Support
- Prevention

MHSA Plan: Service Functions

- Community Support
- Prevention
