Program Description: Outpatient Alcohol and Drug Abuse Service (ADAS) is a six-month treatment program for persons with challenges related to drug and/or alcohol use. The program is comprised of three 8-week phases. Each phase addresses various issues associated with addiction such as addiction education, recovery, communication and relapse prevention. While in each phase, participants are required to attend two monthly individual counseling sessions, two weekly group sessions and drug test on a random basis. The groups consist of one core educational group and one support group each week. In addition, participants are required to attend weekly support groups, e.g. 12-step meetings, for additional support and growth.

The ADAS Perinatal program is a 9 to 12 month program for women who are parenting children and who also have challenges related to alcohol and/or drug abuse. The program is comprised of three 8 week phases and a 10-week phase. Each phase addresses issues related to addiction such as recovery planning, assertiveness, parenting, and relapse prevention. While in each phase, participants are required to attend a weekly educational group and to see their assigned therapist for individual counseling sessions. Participants are also drug tested twice a week and are encouraged to attend two 12-step meetings per week to help them build a strong recovery foundation and support system.

Web Address: www.mhaoc.org

Program Description: The Mental Health Association-Project Together Mentor Program (MHA-PT) provides mentoring services for serious emotional disturbance (SED) children and youth and serious mental ill (SMI) transitional age youth who are receiving mental health treatment services through the County of Orange Health Care Agency, Children & Youth Services (CYS) operated or contracted programs. MHA-PT incorporates mentoring “best practices” as defined by the California Mentor Partnership into all aspects of the mentoring programs, and mentor services are initiated by the clinician of a child’s/teen’s CYS or CYS contract agency. All mentors are matched based on shared cultural and linguistic needs of the children, youth and families, and the clinician determines when a child/teen or parent/guardian will benefit from a mentor. Once a match becomes mutually agreeable to all parties involved, the clinician supports the mentor-mentee relationship, meets and advises the mentor on a regular basis during the child’s/teen’s process of forming a trusting, nurturing and one-to-one relationship.

Eligibility: School age youth five to 15 years of age, Transitional Age Youth (TAY) 16-25 years of age, and client’s parent/guardian who are currently receiving mental health treatment services from the County of Orange Health Care Agency-Children and Youth Services or a County contracted program.

Language(s): English, Spanish and Vietnamese. Bilingual volunteer mentors also provide services in Spanish, Farsi, Korean, Tagalog, and Mandarin.

Hours of Operation: 8 a.m.-5 p.m. Mentoring activities also occur after school and on the weekends, whenever it is convenient for the youth and the youth’s family.

Program Description: Positive Behavioral Intervention Supports (PBIS) is a national evidence based program that offers a school-wide systems approach for preventing problem behaviors such as, but not limited to, truancy, pervasive violence, acting out in class, negative behaviors due to limited cognitive development, and emotional stress for youth who are overwhelmed and may be experiencing anxiety or evidence of Post Traumatic Stress Disorder (PTSD) for children K – 12th grade.

The PBIS program is a three-tiered school wide broad range approach for systemic and individualized strategies to achieve learning and social outcomes at a micro and macro level, while preventing problem behaviors, emotional stress and increasing academic achievement. The first of the three tiers is (*universal prevention*) which integrates the methods across the entire school, teaching every student, faculty and staff on positive and negative consequences for appropriate and inappropriate behaviors. The second tier focuses on (*targeted prevention*) to groups and introduces more instructional strategies and supports to a smaller number of students. The third tier is (*individual prevention*) to those students who have serious and persistent behavioral and academic challenges.

Program Description: The Orange County Department of Education provides Violence Prevention (VP) Education in schools across Orange County with collaboration among community resources and partners. Violence Prevention training and services are intended to reduce school failure and violence in schools, neighborhoods and families. VP programs offer the following:

Gang Prevention: provides training, resources to increase student pro-social behaviors and ultimately reduce gang related criminal behavior and serves as a liaison service between Orange County school districts, law enforcement, probation, local gang task forces, the District Attorney, parents, students, and community agencies.

Hate Crimes, Dating Violence, Child Abduction and Conflict Resolutions: provides training and technical assistance through expert professional developers and trainers for schools across Orange County and the community. For example, radKIDS provides safety education curriculum to empower children while providing skills to protect themselves in a variety of situations.

Safe From The Start: provides essential knowledge specific to the brain development of young children. This sub-component disseminates scientific research based on how exposure to violence, whether through direct physical impact or witnessing violence, can impact the neurological development of young children. Such exposure can negatively compromise learning and normal cognitive development, as well as social and emotional development.

School and Law Enforcement Partnership: provides Bullying Prevention and Crisis Response Network services which are available for public, private and charter schools. The Bullying Prevention training is to assist school personnel and parents on threat assessment for bullying and cyber bullying. The Crisis Response Network is a resource to the schools and community on situations that may be a threat and/or a crisis to a student and other students that may have been affected by the threat or crisis.
