Mark Lawrenz, Health Care Agency

1:40 – Planning PEI Subcommittees
And template building

Chris Bieber and Daria Waetjen

## 2:15 – Ouestions/Comments

Information for planning from the March MHSA PEI Subcommittee Meeting

- 1. Members would like to continue with consumer testimonials to get a firsthand account of a client's experience with the program. Programs should be evaluated not just on numbers and data, but on the activities/services provided by the programs.
- 2. Presentation of an overview of PEI Programs in the state and what Orange County is doing for best practices in comparison. Perhaps, work to develop successful Evidence-Based Practices from other counties. Look at similar sized counties first.
- 3. Overview of PEI in Orange County, to refresh the members knowledge of what is currently out there.
- 4. Outcomes update from the last time RDA did their presentation. For Programs where there were additional questions/comments during presentation, members would like an update.
- 5. How is PEI addressing the initial goal of MHSA with homelessness?
- 6. Have the PEI research analyst do a program analysis and presentation on how evaluations are conducted.
- 7. Where PEI is currently going forward after the three-year plan; putting it in perspective in relation to the goals.
- 8. Once the three-year plan is posted, members would like time to read it and examine the data to see what is a priority.
- 9. Look at the programs that were given growth funds as the first priority.
- 10. Stigma reduction plan: what activities are being held in the County?
