VACCINE FACTS & TIPS

FACT: According to the Centers for Disease Control and Prevention, more than 570,000 Americans have died to date from COVID-19. Wearing a mask that covers your nose and mouth, maintaining social distancing, and getting a COVID-19 vaccine when it is available to you remain the best ways to help protect yourself and others. [Learn more.](#)

FACT: According to the American Academy of Pediatrics, while most children with COVID-19 have mild symptoms or have no symptoms at all, they can still spread the disease to others. In addition, severe COVID-19 illness and deaths have been reported in children under one year old and those with underlying health conditions. [Learn more.](#)

FACT: According to the Centers for Disease Control and Prevention, scientists are still learning how well vaccines prevent the spread of COVID-19 to others. Early data show the vaccines do help keep people with no symptoms from spreading COVID-19, but we continue to learn more as more people get vaccinated. [Learn more.](#)

SPREAD POSITIVE VIBES

Here's what the OC community is saying about the vaccination experience:

The County of Orange Incident Management Team's Operation Independence celebrates 1 MILLION doses of #OCCOVID19 vaccine successfully administered through the #Othena platform 🎉. Visit Othena.com to register & schedule your appointment today.
