# COVID-19 Vaccine Newsletter

VOLUME 1, ISSUE NO. 19

JUNE 2, 2021

## VACCINE NEWS ROUNDUP

Community members get their temperatures checked before being vaccinated against COVID-19 at a mobile point-of-dispensing event sponsored by CalOptima and the County.

- [KFI AM 640, 6/1/2021](#): Updated COVID numbers expected today in OC; hospitalizations remain low
- [OC Breeze, 5/31/2021](#): County of Orange anticipates increased demand for first dose of COVID-19 vaccine
- [CNN, 5/29/2021](#): What we know so far about Covid-19 immunity -- and what it means for vaccine boosters
- [Count of Orange \(press release\), 5/28/2021](#): County of Orange's super point-of-dispensing (POD) sites will administer first dose of COVID-19 vaccine next week
- [Orange County Business Journal, 5/28/2021](#): 1.5M OC residents fully inoculated
- [Orange County Register, 5/28/2021](#): Coronavirus: More than 60% of people over age 50 fully vaccinated in Orange County as of May 28
- [NBC10, 5/28/2021](#): Free Money: California launches 'Vax for the Win' incentive program to get more people vaccinated

## VACCINE DASHBOARD

## VACCINE FACTS & TIPS

**FACT:** According to Johns Hopkins University, the Moderna and Pfizer COVID-19 vaccines authorized by the FDA were not developed with, nor do they contain controversial substances. They were not developed using fetal tissue and do not contain any material such as implants, microchips or tracking devices. [Learn more.](#)

**FACT:** According to the Centers for Disease Control and Prevention, COVID-19 vaccines authorized for use in the United States do not shed or release any of their components. Vaccine shedding can only occur when a vaccine contains a weakened version of the virus. None of the vaccines authorized for use here contain a live virus. [Learn more.](#)

**FACT:** According to the Centers for Disease Control and Prevention, there is currently no evidence that COVID-19 vaccination causes any problems with pregnancy, including the development of the placenta. In addition, there is no evidence that fertility problems are a side effect of any vaccine, including COVID-19 vaccines. [Learn more.](#)

Here's what the OC community is saying about the vaccination experience:

#vaccinated 🙌 #Fullyvaccinated

### COVID-19 Vaccine Benefits

After you are fully vaccinated for COVID-19, you may be able to start doing some things that you stopped doing because of the pandemic. For example, you can gather indoors without masks with other people who are fully vaccinated.

A photograph of a group of people, including a woman, a child, and a man, sitting around a table and smiling. The image is overlaid with a blue tint.
