BEHAVIORAL HEALTH SERVICES AUTHORITY AND QUALITY IMPROVEMENT SERVICES

Consumer Perception Survey
November 2018 YSS Administration
Children and Youth
Ewa Borucki, Ph.D. and Jonathan Rich, Ph.D.
June 10, 2019

The Youth Satisfaction Survey (YSS) was offered to all teen and transitional age youth clients attending mental health services at a County or contract CYBH clinic from November 5 to 9, 2018. The intended age range for the YSS is 12 and older. The initial file contained 1003 client records. YSS records with birthdates corresponding to an age of 12 – 25 and with a CYBH, Innovations or Prevention & Intervention program indicated were retained for this analysis. Records with no birthdate, a birthdate outside of the age range, or a program code that was missing or incorrect, or that was associated with an AOABH program were eliminated from this analysis. This left 815 records.

YSS Results

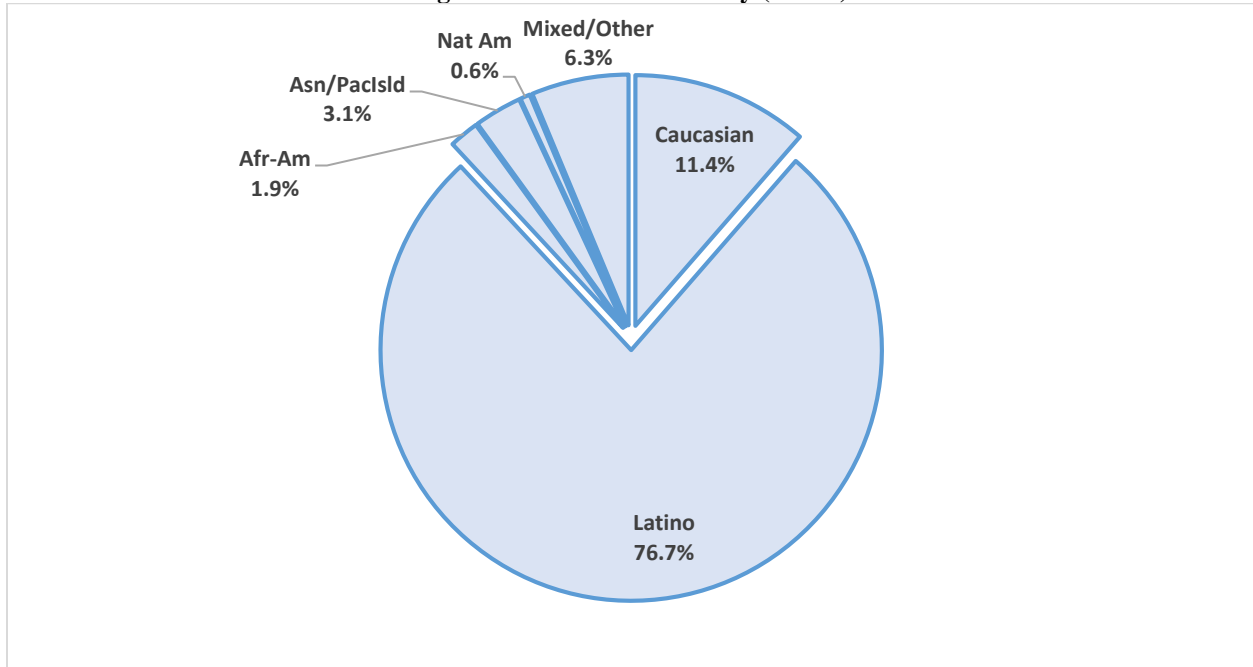

Sample description:

N:	815
Gender (n = 791):	F-443 (54.4%), M-335 (41.1%), O-13 (1.6%)
Age (n = 815):	Mean = 15.4, s = 2.5, range = 12-25.
Form Language (n = 774):	English-763 (98.6%), Spanish - 6 (0.8%)

Race/Ethnicity (n = 781):

Survey respondents describe their race and ethnicity by selecting as many of the following categories as applicable: Hispanic, American Indian, Asian, Black, Pacific Islander, White, Other Race, and Unknown Race. These selections were reduced to six categories as follows. If either Asian, Pacific Islander, or both are selected, that is considered a single category, “Asian/Pacific Islander.” If only one category is selected, then the participant is assigned to that category. If more than one category is selected, or if “Other Race” or “Unknown Race” is selected, the participant is classified as “Mixed/Other.” If “Hispanic” is selected, the client is classified as “Hispanic,” regardless of the other selections.

Figure 1. Client race/ethnicity (n=781)

County vs. Contract (n = 815):

County 254 (31.2%) vs. Contract 561 (68.8%)

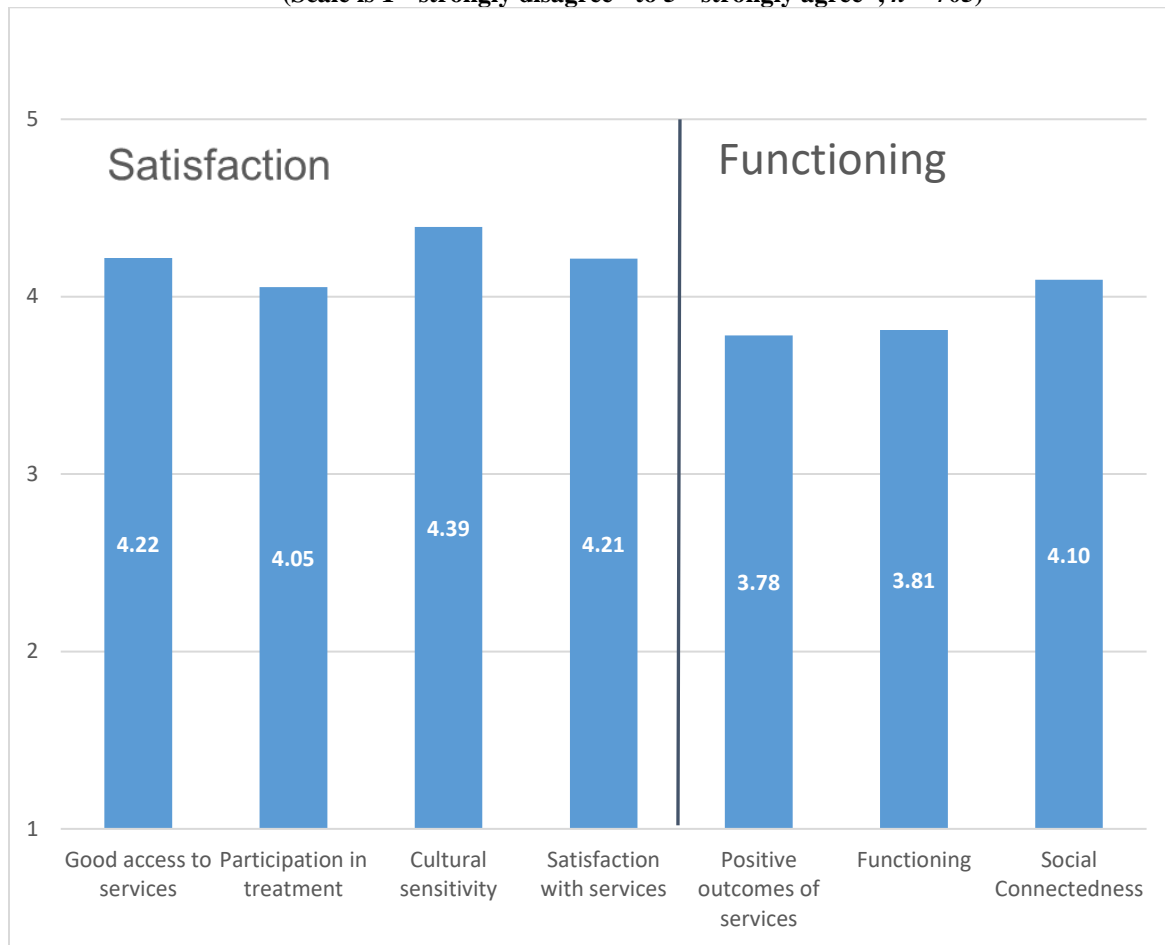

Division (n = 815):

CYBH- 678 (83.2%) P&I- 134 (16.4%),

Innovations-3 (0.4%)

Mean YSS scale scores:

Figure 2. Mean Scores: YSS
(Scale is 1-"strongly disagree" to 5-"strongly agree", *n* = 705)

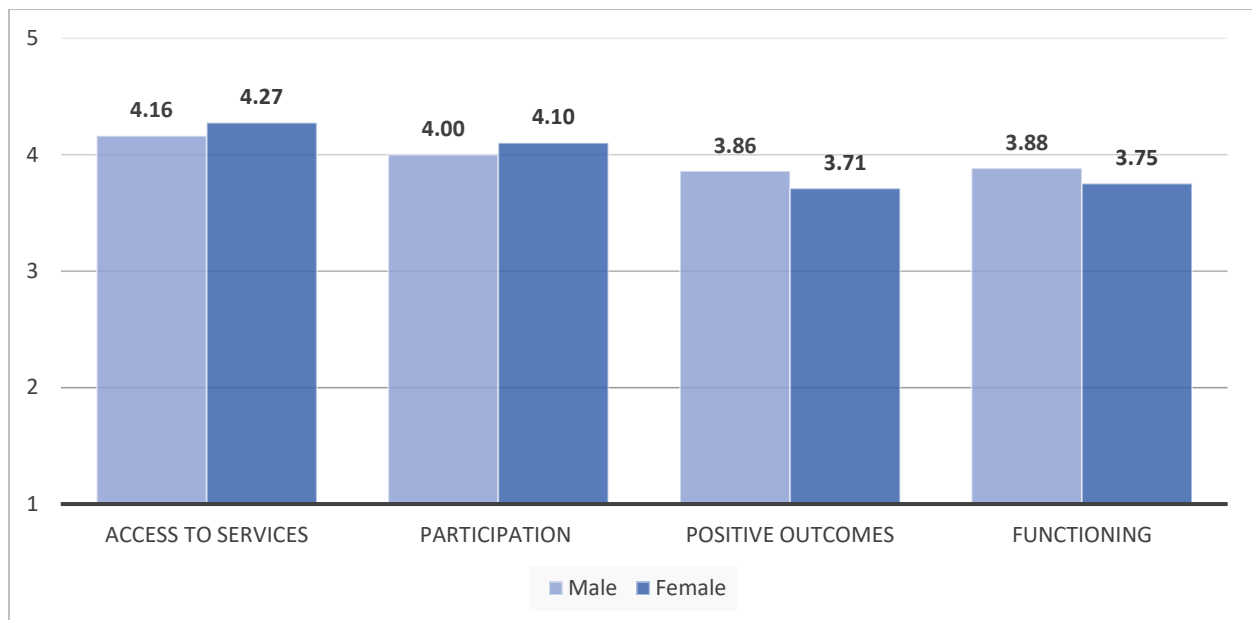

Factors affecting YSS scores:

There were no significant race/ethnicity differences found in YSS scales.

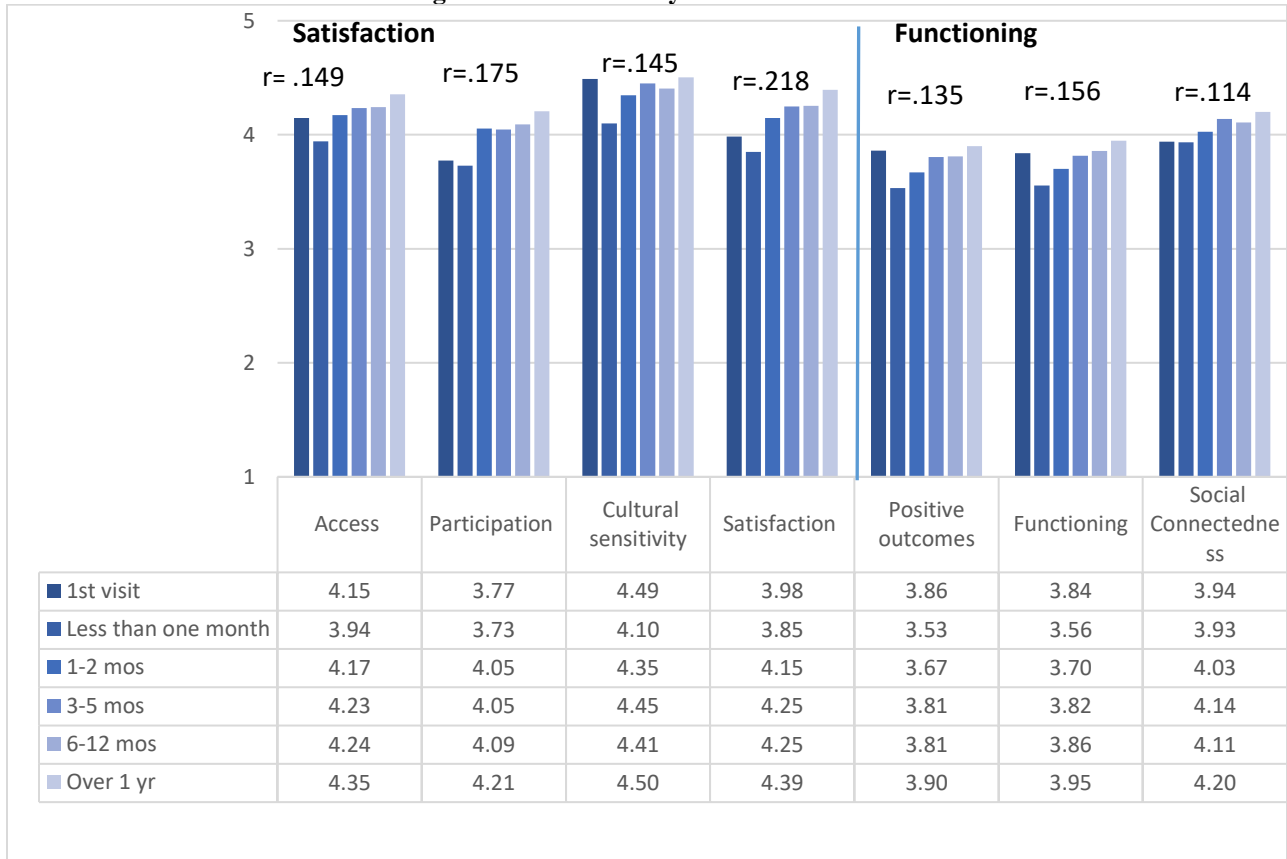

There were significant gender differences ($p < .01$) across the YSS Access, Participation, Positive Outcomes and Functioning scales. Females scored higher on Access and Participation, whereas males had higher Positive Outcome and Functioning scores.

Figure 3. YSS scores by gender

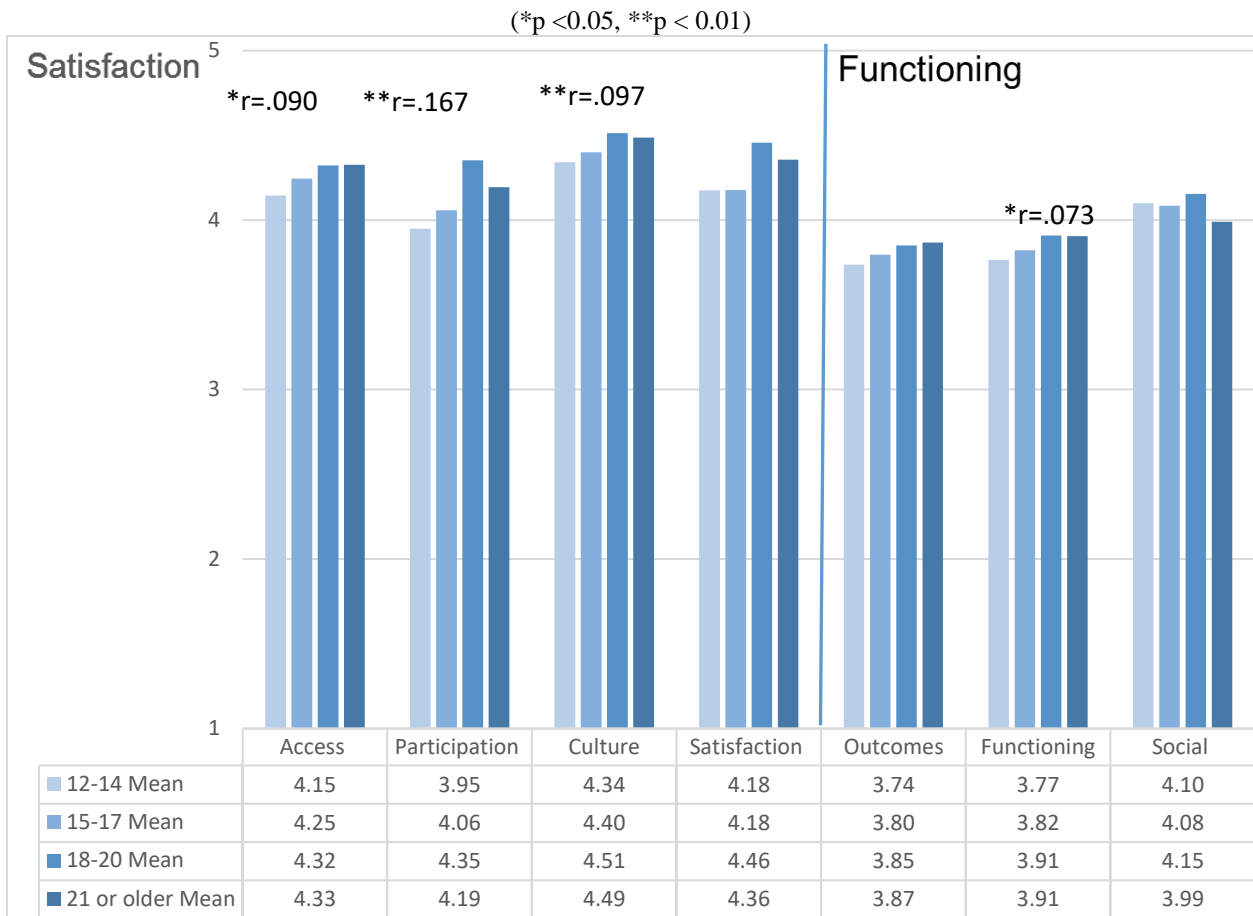

Clients who had been enrolled longer in services tended to score higher on YSS scales. These relationships are depicted in Figure 4. All are significant at $p < .01$.

Figure 4. YSS Scores by time in service

Access, Participation, Cultural Sensitivity, Satisfaction and Functioning showed a positive correlation between the YSS scales and age.

Figure 6. YSS mean scores shown by age

Living Situation

Clients were asked, “Have you lived in any of the following places in the last 6 months? (Mark all that apply.)” The responses to this question are seen in Figure 6. Four out of five youths resided with one or both parents during the prior six months. 4 percent of youth reported homelessness during this same period and 5% had either been homeless or lived in a homeless shelter. Homelessness increased with age, with those 21 or over experiencing far greater rates of homelessness than those younger (Figure 8).

Figure 7. Percentage in living situation over past 6 months

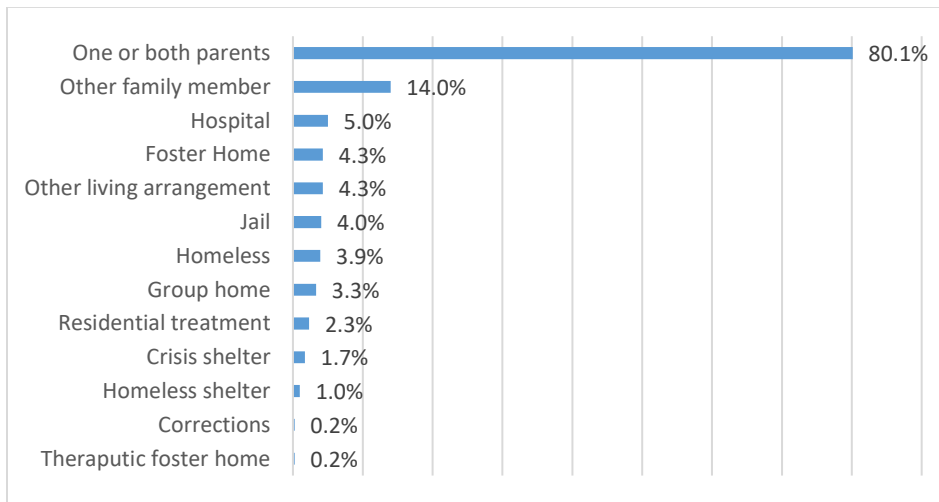

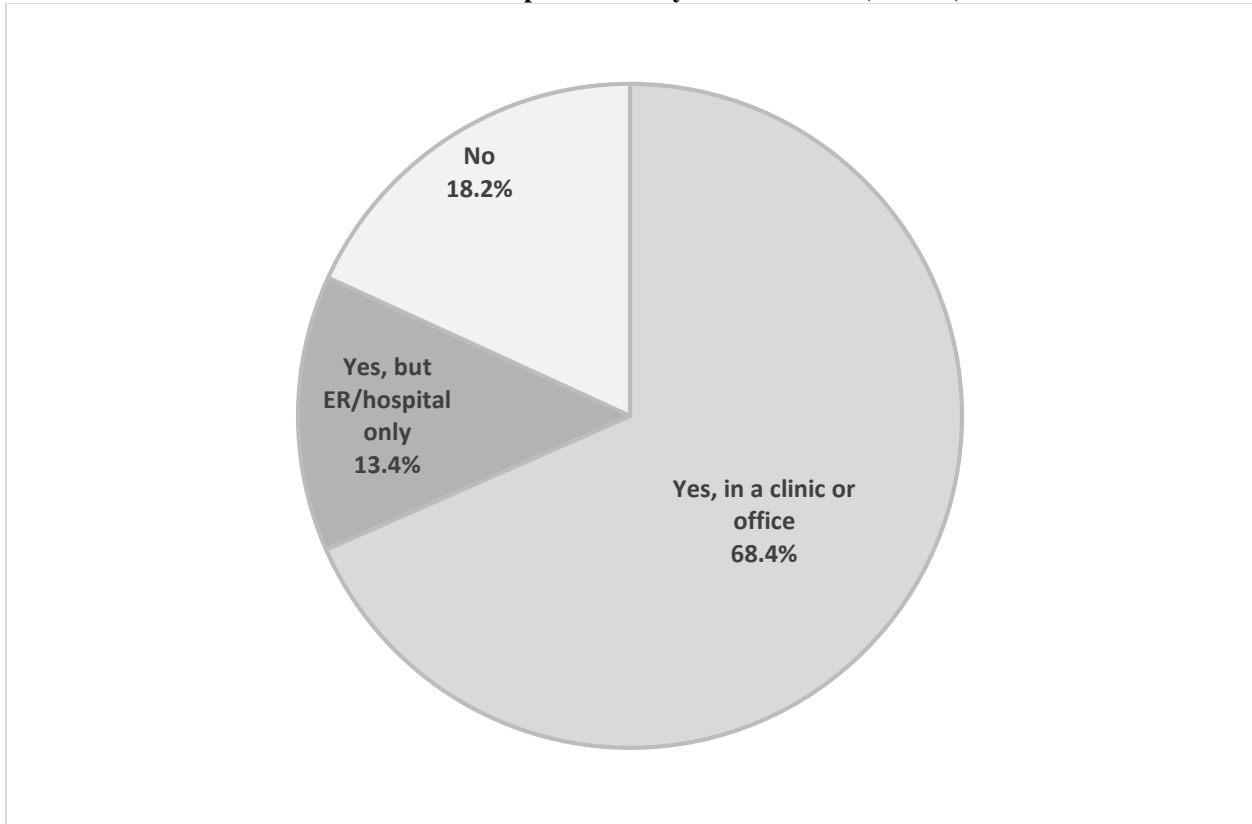

Figure 8. Homeless or in homeless shelter in last 6 months, by age

Doctor visits and medication

As reflected by Figure 9, 68.4% of clients reporting (433/633) were seen for a medical clinic or office visit in the prior year

Figure 9. "In the last year, did you see a medical doctor (or nurse) for a health check-up or because you were sick?" (n = 633)

Psychotropic medication is taken by 26.3% of clients reporting this information (217/782). Of those receiving medication, 81.3% (174/06) indicated that the doctor or nurse told them what side effects to watch for.
