There are many statewide cross-agency meeting being facilitated by California State Association of Counties (CSAC) to discuss the realignment proposal. There are also many recommendations being made by workgroups to the Governor's office. Workgroups include Health and Human Services Technical workgroup, Public Safety Technical workgroup, and the Fire Technical workgroup. The Governor's office is very open to receiving input from these workgroups. The realignment is contingent on voters approving a 5-year extension of 2009 temporary tax increase and VLF fee increase in June special election.

Defendants are charged with a code violation for their drug crime and they cannot be charged with a local ordinance on the same crime. Pursuing a local ordinance may not be worthwhile course to take. Negotiated plea agreement to donate dollars may be the most viable option as is for Mother Against Drunk Drivers (MADD). This could be an option if the District Attorney would agree to pursue this.
- Finally, the board agrees to vote and draft letter to Judge Boris in regards to court fees. Rolf will be lead and Ellen will review the letter. Lori Sanjuan of ABC Traffic programs suggested that on the letter to the judges address the benefits of the program rather than in a way of telling the judges what to do.

BEHAVIORAL HEALTH SERVICES UPDATE:

**Brett O'Brien, Division Manager,
Alcohol & Drug Abuse Services**

- Brett updated the board on the board on both the state and local budget. The Governor's May Revise was released on May 16th and the governor is still pursuing his proposed realignment. The Governor's plan is to fund realigned programs through extended taxes that must be approved by the legislature to be placed on a ballot to be voted on by the people. There are not currently enough votes in the legislature to place the extensions on a ballot measure. The Governor is determined to make this happen.
- Furthermore, Brett explained that the proposed budget eliminates the state Department of Alcohol and Drug Programs along with the Department of Mental Health. One possibility is that these departments will fall under the Department of Health and Human Services. Another possibility is that the two departments would be merged into one.
- In regards to the Tobacco Settlement Revenue (TSR) funding from the Sheriff for the in-custody treatment program, the department is operating as if the funds will be eliminated and are currently ramping down services. The Sheriff has requested that the Board of Supervisors restore the funds, which will be voted upon on June 7th.
- Brett reported that the State Department of Corrections eliminated \$150 million from their budget which includes funding for the Parolee Services Network, which provides \$519,000 in services in Orange County. The US Supreme Court also recently ruled that California must reduce its prison population over the next few years. With the funding cuts to treatment, there are even fewer dollars available to the parolee population.
- Finally, Brett informed board members that treatment providers that have licensed staff or registered interns for licensure should be aware that the State's licensing process are extremely delayed due to staff shortages. Providers are encouraged to advise clinical staff to get their license renewals in early to prevent possibly operating without a valid license.

BEHAVIORAL HEALTH SERVICES UPDATE:

**Brett O'Brien, Division Manager,
Alcohol & Drug Abuse Services**

- Brett updated the board on AB 109 – the realignment of prisoners being released from prison to local government for supervised probation. As of October 26, 2011, 134 probationers have been released to the Orange County Probation Department. Individuals are given 48 hours upon release to report to probation before a warrant is issued for their arrest. To date, there are only 3 releases in which a warrant had to be issued. At this time, it is unsure the percentage of individuals who will need substance abuse treatment, however Behavior Health Services has placed a staff at the probation department to conduct assessments for both substance abuse and mental health treatment.
- Additionally, Brett reported that this law allows the probation department to impose various terms and conditions in alliance with their release. For example, consequences can range from community service to incarceration. Also, Brett reminded the board that the law also allows for certain prisoners to serve out the remaining of their sentence in local county jails versus or state prison.
- Furthermore, in regards to the Mental Health Services Act (MHSA) – Innovation component, BHS staff has been placed at the primary care facilities throughout the county. This is a new collaborative effort of integrated care between behavioral and physical health care.
- Finally, Brett updated the board on the state realignment in regards to alcohol and drug programs. State administrators are working with the California State Association of Counties (CSAC) to create a ballot initiative which will protect funding that has been allocated for local substance abuse treatment. CSAC is anticipating that this protection act will make the November 2012 ballot.

The objective of these events is to engage youth involvement and honor the Orange Police Department. Additionally, the Santa Ana Police Department was recognized for their work in the community with the Driving Under the Influence population.
