

**Food Safety
Program**

Environmental Health Food Safety Training Workshop

September 26, 2023 at 9:00 a.m. - 11:30 a.m.

Attending this workshop will give you valuable insights into what health inspectors look for during inspections.

We will dive into basic food safety requirements while providing in-person situational examples to allow you to understand food safety.

This informative session will cover essential food safety procedures, foodborne illness prevention, and the inspection criteria.

We strive to provide you with a wealth of proper food handling procedures to help you create a healthier environment and reduce the risk of foodborne illnesses.
