# OC Navigator's Goal

Facilitate an individual's journey

Do I need help?

Who to trust?

How to find, connect?

What's right for me?

My other needs?

For the community, by the community

- Reflecting communities' wisdom within technology
- Participatory development together
- Integrated with local systems and partners

# OC Navigator's Impact on the Community

“Creo que OC Navigator para mí en lo personal lo **veo como esta plataforma por lo menos un poco de esperanza para los retos que hay.** Pero sabemos que tampoco va a ayudar a todos donde tiene que llegar la ayuda, donde hay esa necesidad. Pero algo, algo muy importante es **talvez no estamos donde queremos llegar, pero no estamos donde estábamos años atrás.** Entonces veamos los éxitos que hemos tenido. Pero sigamos perseverando.”

“I think OC Navigator for me personally is a platform where **I can get some hope to face the challenges there are.** We know that it may not yet reach everyone who needs help.... But it is something that is important. **Maybe we are not where we want to be [in terms of helping people] but we are not where we were years ago.** So let's look at the success OC Navigator has had. Let us keep persevering.”

# Community Feedback Themes

- **OC Navigator is easy to use and helps users find resources they need.**
- **Keep going! Add more resources and guides, and continue to improve with new features.**
- **Make it even easier to find resources by including the resource's insurance and payment information.**

# Project Reflections

- Outreach and engagement have been effective in significantly increasing OC Navigator site activity.
- Users are able to find what they are looking for, for themselves, their families, or their clients.
- OC Navigator continues to be a source of information about the day-to-day needs of the community.

# Up Next: Continuous Improvements

## Top Priorities

- Improve the **search experience** to make it easier to find resources
- Add **subcategories & focus populations** to make it easy to search for resources
- Implement **resource data governance** processes
- Continue **resource curation** to help users find the resources they need
  - **4 new resource guides** in development
- **Ongoing:** community engagement, user feedback activities, analytics, and accessibility

**Thank you for the  
collaboration!**
