

BHSA Community Program Planning Stakeholder Breakdown

Demographic surveys are collected once per fiscal year for each participant, not at every event. This means someone who attends multiple CPP events only completes the survey once, which is why response rates are less than 100%. 	Data from Community Program Planning events January through October 2025. Data was not collected specifically for the following stakeholder groups, but will be collected in 2026-2027: Area Agencies on Aging, Community Organizations Serving Culturally and Linguistically Diverse Constituents, Representatives from the Five Most Populous Cities in Counties with Populations Greater than 200,000, and Youth Mental Health/Substance Use Disorder Organizations.							

<p>The numbers in each cell show the percent of people who filled out the survey and identified with each group for that activity. We use percentages instead of counts to make it easier to compare across activities with different numbers of participants. Survey respondents could select more than one stakeholder group.</p>		Planning Advisory Committee Meetings	Focus Groups and Interviews	Education Sessions	Listening Sessions	Community Forums	Workgroups	Behavioral Health Equity Committee
