FACILITIES ADVISORY COMMITTEE ORANGE COUNTY EMS FACILITY DESIGNATIONS

September 8, 2026

The following hospitals have applied to Orange County Emergency Medical Services (OCEMS) for Emergency Receiving Center (ERC) and/or Specialty status (Cardiovascular Receiving Center/CVRC, Stroke Neurology Receiving Center/SNRC, and Comprehensive Children's Emergency Receiving Center/CCERC) designation or re-designation. This report summarizes the OCEMS review of their applications noting deficiencies, conditions and recommendations. Today, it is presented to the Facilities Advisory Committee for committee endorsement.

General Findings: The following facilities currently meet the designation requirements for Emergency Receiving Center and Specialty Center designation, when applicable. Endorsement considerations of designation are for one to three-year terms or otherwise specified as recommended by committee.

FACILITIES – INITIAL DESIGNATIONS

Chapman Global Medical Center

Emergency Receiving Center (ERC)

ERC DQ Completed: 3/11/2026
Site Survey Conducted: 4/21/2026
Program Review Dates: Initial

Criteria Deficiencies:

The following conditions must be completed to satisfy criteria for designation as an Orange County Emergency Receiving Center.

	CONDITION	DESCRIPTION	CORRECTIVE ACTION	DUE DATE
1	100% chart review for quality assurance completed on all interfacility transfers (IFTs) for higher level of care (HLOC).	Every IFT for HLOC chart will be reviewed for completeness, accuracy, and compliance with all county, state and federal policies and regulations.	Provide proof of 100% chart review for all HLOC IFTs.	Ongoing, and next ERC Designation Nov. 2027
2	Maintain compliance of staff completion of annual EMTALA training.	All ED nurses and medical staff are required to complete EMTALA training annually to ensure continued compliance with federal regulatory requirements.	Provide curriculum and proof of training completion for all nursing and medical staff.	Ongoing as new staff are hired, and next ERC designation Nov. 2027
3	ReddiNet Response Rate for MCI drills, HAvBED, and Patient Census must be >90% compliance.	Chapman Global had an average response rate to HAvBED of 82% and Patient Census of 80%.	Hospital will submit a corrective action plan to maintain compliance of >90% on all ReddiNet MCI drills, HAvBED, and Patient Census.	11/1/2026

Endorsement Consideration: One (1) year (10/2026-11/2027) – **Conditional**
